SISTER STANISLAUS

Our Lady with a Lamp

Through years of service, Sister has kept her lamp burning and has held it aloft to make the way bright and straight for myriads of nurses.

Who shall ever forget her oft-repeated counsel: "Be good to our poor people."

DR. GEORGE S. BEL

In Memoriam

"One who never turned his back, but marched breast forward . . . . "
A friend, who was ever considerate of Charity Hospital Student Nurses; an administrator, who provided us with many comforts and afforded us many pleasures; a counselor, who amid his manifold occupations found time to devote to our welfare and problems; a physician, who was outstanding for his professional leadership and his work for humanity.

The Nightingale Pledge

*

I solemnly pledge myself before God and in the presence of this assembly: To pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous and will not take or knowingly administer any harmful drug.

I will do all in my power to elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knowledge in the practice of my profession.

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

God Made a Nurse

God made a nurse.
He made her heart brave, true, and kind,
And like the mountain streams her mind,
As crystal clear, yet swift and deep,
As where its waters rush and sweep.

He made her hands strong, tender, skilled,
Their touch with His own pity filled,
And gave, to make His nurse complete,
A sense of humor, wholesome, sweet.
God made a nurse—Thank God.

Don't Wait Until Your Eyes *Complain* To Try *"Light Conditioning"*

Eyes are slow to complain about abuse . . . slow to object to poor light. Often by the time eyes do speak out, they have already been strained . . . perhaps injured. Don't wait! Try light conditioning today! For light conditioning gives you enough light in enough places to make seeing easy . . . helps guard young eyes and old.

A 10c powder puff, so casually thrown away after a week's use, costs twice as much as the "better sight" light from a 150-watt bulb used for more than an hour a night for a week! It costs less than a half a penny more to burn a 100-watt bulb for three hours than it does a 60-watt one . . . but what a great increase in eyesight protection that half-penny brings!

Try it! And See For Yourself . . . your dealer has many simple, inexpensive fixtures to help you.
